

S Class Generators

PRAMAC introduces a new line of Contractor style generators. The S Class Generators were developed with the contractor or rental operator in mind to meet the everyday demands found on multiple job sites. Powered by Honda gas engines, the S Class Generators are available from 3 to 12kW and are fully EPA, CARB and CSA compliant.

Standard features include rugged frame design, large fuel tank with gauge, fuel valve, idle control, hour meter, voltage selector switch and easy to read electrical panel. Any of the S Class Generators can be fitted with an optional wheel kit. An on-board storage compartment is included with the S6000 and S7200.

S CLASS GENERATORS	ENGINE	POWER (kW)		TANK Gal
		Rated	Surge	
S3100 - Manual	Honda GX160	2600	3100	2.9
S4000 - Manual	Honda GX240	3800	4000	7.0
S6000 - Manual	Honda GX340	5300	6000	8.0
S7200 - Electric	Honda GX390	6100	7200	8.0
S12000C - Electric	Honda GX620	10000	12000	8.0

GRW Class Generators

PRAMAC introduces a new line of Rental Series generators. The GRW Class Generators were designed for Rental Operators that require a modern design, low noise level and versatility. The GRW Class Generators are powered by Yanmar or Perkins diesel engines and are available from 14 to 175kW. All are fully EPA compliant.

Standard features include water cooling system, internal residential muffler, detachable lifting point, large integrated fuel tank, 3-way fuel valve, analog gauges, engine protection system, emergency stop, oil drain pump, voltage selector switch and external potentiometer. Any of the GRW Class Generators can be fitted with an optional trailer.
